Request for Expression of Interest

Country: Kosovo
World Bank Loan/Credit Name: Early Childhood Education and Care for Kosovo's Human Capital (ECEC-HCP)
Project ID: P179656
Date: 06/10/2026
Procurement reference: XK-MES-565269-CS-INDV-CE

INXHINIERI I NDËRTIMITARISË

BACKGROUND

The ″Early Childhood Education and Care for Kosovo′s Human Capital" Project has been designed to advance key national priorities in the areas of early childhood education and care (ECEC), social inclusion, gender equality, and climate-responsive sustainable development.

Specifically, it strengthens Kosovo′s efforts to expand equitable access to quality ECEC services, empower women and marginalized groups, strengthen institutional frameworks, and support development aligned with climate priorities, in accordance with the strategic priorities of the Kosovo Government and the World Bank.

The Project is structured around four mutually reinforcing components that address both supply-side and system-level constraints in the ECEC sector.

Component 1: Improving the Quality of ECEC Services focuses on strengthening service standards, advancing the ECEC workforce, improving pedagogical practices, and strengthening quality assurance and monitoring systems.

Component 2: Promoting Multi-Sectoral Integration in ECEC Service Delivery addresses the fragmentation of early childhood development services across the education, health, social protection, and child protection sectors.

Component 3: Increasing Equitable Access to ECEC Services aims to expand the availability of ECEC services, particularly in underserved municipalities and for vulnerable

populations, through investments in infrastructure, service expansion, and targeted access measures.

Component 4: Project Management, Monitoring and Evaluation supports effective implementation, coordination, and monitoring of results.

The dedicated Project Implementation Unit (PIU) within the Ministry of Education and Science (MoES) is responsible for the day-to-day management of the Project, fiduciary functions, procurement, monitoring and evaluation, as well as coordination of technical assistance under the Project components.

With the aim of achieving national objectives in Early Childhood Education and Care, the Ministry of Education and Science, as the lead and implementing institution, intends to engage an Civil Engineer.

RESPONSIBILITIES OF THE CIVIL ENGINEER

The Civil Engineer will be responsible for managing, coordinating, monitoring, and supporting the implementation of the Project's infrastructure components, including ensuring the Project's compliance with applicable legislation, building design norms and standards for preschool facilities, the technical requirements and standards applicable to the Project, as well as the World Bank's Environmental and Social Standards.

The main duties and responsibilities are set out in the Terms of Reference (ToR) for this assignment.

General Qualifications

The Civil Engineer should possess the following qualifications:

* Graduate Civil/Construction Engineer (five-year university programme), specializing in Structural Engineering, or a holder of a Master′s degree in Civil/Construction Engineering, specializing in Structural Engineering, and holding a valid Category A professional licence in the relevant field, according to the legislation;

* A minimum of seven (7) years of professional experience, of which at least three (3) years of demonstrated professional experience in the management of construction projects;

* Demonstrated experience in the assessment, coordination, and/or supervision of the design, construction, and/or development of social physical infrastructure. Experience with educational facility construction projects will be considered a particular advantage;

* Good knowledge of applicable legislation in the field of construction, norms and standards for preschool facility spaces, and procedures related to the design, construction, and development of public infrastructure, including energy-efficiency and sustainable construction requirements. Knowledge of and/or experience with the World Bank′s Environmental and Social Standards (ESS) will be considered a particular advantage;

* Excellent knowledge of the Albanian and English languages. Knowledge of the Serbian language will be considered an advantage.

ENGAGEMENT PERIOD

The Civil Engineer will be engaged on a full-time basis. The contract is expected to commence in November 2026 and continue until June 2029. The duration of the contract will be subject to satisfactory performance, as assessed through the formal annual performance review. The first six months will be considered a probationary period. The position is based in Pristina and requires regular visits to project sites throughout the territory of Kosovo. Payment will be based on the monthly rate specified in the contract. The Civil Engineer is expected to commence the assignment upon signing of the contract.

SELECTION PROCESS

Experienced and qualified individuals will be selected in accordance with the provisions of the World Bank's Procurement Regulations for IPF Borrowers, July 2016, based on an open call for applications on the selection method for **Individual Consultant – Open National.**

Evaluation Criteria

- **General Qualifications** – 30 points
